

SaskTel Wireless Calling Features

C

There are several optional calling features to add to your wireless device.

Voice Features:

Call-Back Number

Terms and Conditions

1. Customers seeking to take advantage of the Call-Back Number feature must subscribe to VMS Basic, Mini Mail, or VMS Enhanced.
2. This feature is not available to prepaid customers.
3. Call-Back Number is not available to Message Manager One subscribers.
4. Not all analog phones support the Call-Back Number feature. In order to subscribe to the Call-Back Number feature on an analog phone, the Customer's phone must be "text-messaging" capable. F
5. SaskTel's wireless server will hold call-back numbers for three days after which time they will be automatically deleted. SaskTel cannot guarantee delivery of call-back numbers that are not retrieved within three days as they are automatically deleted by the wireless server after this time period. C
|
6. On a digital phone, Call-Back Number is available in analog and wireless coverage areas throughout the Canadian provinces. C
7. The ability to receive the Call-Back Number feature in analog and wireless coverage areas in provinces other than Saskatchewan depends on that province's network setup. C

Rates

The following rates and charges apply for Call-Back Number:

Monthly Access Charge	<ul style="list-style-type: none"> • \$5.00 per month for unlimited call-back numbers (those customers who have pay-per-use text messaging). <p>OR</p> <ul style="list-style-type: none"> • No charge for wireless customers with a <u>text messaging monthly subscription</u>. 	F F

Connex

Terms and Conditions

Number and group restrictions

1. The master number for Connex must be a SaskTel wireless number. If the master number is a virtual number, it does not need to have a chargeable rate plan attached. C
F
2. If a group reduced in size to three or less members fails to notify SaskTel and continues to pay the higher group rate for 30 days or more, SaskTel will credit the difference for only the last billing period (30 days). C
|
3. A group must have, as either a member or the master number, at least one SaskTel postpaid wireless customer on a rate plan. A virtual master number does not have a chargeable rate plan attached and thus does not meet this condition. C
|
4. If a virtual master number activates as a post-paid wireless on a contracted rate plan, the Customer is treated as a new customer and is eligible for any promotions that new wireless customers are eligible for. If the virtual number is activated as a post-paid wireless on a monthly term, the Customer will be charged an activation fee. C

Mini Mail

Terms and Conditions

1. Mini Mail airtime applies for both message deposits and retrievals. It applies regardless of whether users access their Mini Mail from a wireless or a landline phone.
2. Each time a user accesses their Mini Mail (for both message deposits and retrievals), the minimum charge is for one minute of airtime. Each subsequent minute is billed in six-second increments, rounded up to the nearest six seconds. For example:
 - A customer accesses his/her Mini Mail and uses a total of one minute and 25 seconds of airtime.
 - The next highest six-second increment is one minute and 30 seconds; that is the time the Customer will be charged for.
 - To calculate the charge, the airtime must be converted to minutes. Since six seconds equals 0.10 minutes (i.e. one minute and six seconds equals 1.1 minutes, one minute and twelve seconds equals 1.2 minutes, etc.), you would use 1.5 minutes to calculate the charge for this Mini Mail access.
 - The Mini Mail airtime charge is \$0.23 (1.5 minutes x \$0.15 per minute = \$0.225).
